GENOA CONFERENCE VOTE.
DEBATE IN THE COMMONS.
RUSSIA'S RETURN ESSENTIAL.
PROBATIONARY RECOGNITION PROPOSED.

LONDON, April 3.
The House of Commons was crowded and very animated for the Genoa conference vote of confidence debate. Mr. Asquith was absent owing to a chill. Mr. Lloyd George who made his first appearance in the House since February 28, was loudly cheered.
Moving the motion "That the House approve the resolution of the Supreme Council at Cannes as a basis for the Genoa conference and will support the Government in giving effect to it," the Premier denied the allegation that the Cabinet had revised the terms thereof. On the contrary the Cabinet had accepted the motion in the form he submitted it (Ministerial cheer).
Dealing with the objections to the Cannes resolutions limiting the scope of the discussions at Genoa, he declared that the Genoa conference could not properly consider revision of existing treaties even if desirable or the question of reparations. It would be unfair to ask France to submit to the judgment of the Genoa conference upon question so vital to her.

RUSSIA'S CHANCE.
Mr. Lloyd George said that the impoverishment of Europe and the collapse of international trade, especially affecting Britain, necessitated an effort like the Genoa conference to establish international peace.
The question of peace with Russia whose principles were odious and actions loathsome must be approached from the standpoint not of what was happening in Russia, but that for the benefit of Europe and the world Russia must recognise her obligations—(Cheers)—and cease attacks on institutions in other countries and undertake no aggression against the frontiers of her neighbours.

There were indications of a complete change in Russia's attitude on the subject of peace. Lenin in a speech on November 1 admitted the failure of the communist system. If this represented the real determination of Russia then there was a real basis for working out conditions of peace with Russia.
If peace could be achieved it must be ratified by the commons but there would be no full diplomatic representation of Russia until the powers were satisfied that she was really endeavouring to carry out her undertaking. Meanwhile representation would be by a charge d'affaires.

The Premier concluded that the Government proposed very serious measures, feeling that the people of England demanded them, Europe needed them, and the world was crying for them. (Loud Cheers.)

RUSSIA'S DEBTS.
One of the first things to be attempted at Genoa was the restoration of exchanges. He contended that with our unemployed we were unable to afford to delay action as regards Russia until things settled down there. Moreover Germany was unable to pay the full reparations demand until Russia was restored but Russia must recognise all the conditions imposed and accepted by civilised communities as a test of fitness for entering the community of nations. Russia was unable to pay immediately and nobody expected her to do so, but she must shoulder her responsibility as France and Britain did. Confiscated property of British nationals must be restored, compensation paid and impartial tribunals established.

SOVIETS' BAD FAITH.
The way some of the more important clauses in the trade agreement had been violated was not encouraging. Propaganda and interference in our country and other countries in which we were interested had not ceased completely as we had a right to expect.

There could be no change in representation or the extent of diplomatic recognition of Russia until peace had been ratified by the House of Commons. The object of the proposed probationary period before full diplomatic representation was accorded would be to obtain guarantees in practice that the Russian Government intended not only themselves to honour their obligations but to establish sufficient control over the extremist organisations in their midst who were now challenging the Soviet Government's new policy.

LENIN RESTS BUT NOT IN PEACE.
HUNTING AND WRITING A BOOK.

LONDON, April 3.
The Manchester Guardian's Berlin Correspondent states that Lenin is resting in the country near Moscow. He is mostly hunting and writing a book. He is attending only to the most urgent state affairs and is expected soon to recover.

NEW YORK RAILROAD BONDS.
\$60,000,000 ISSUE OVERSUBSCRIBED.

New York, April 3.
Morgans announce that the issue of \$60,000,000 90 year 5 1/2 per cent New York Central Railroad bonds at 94 1/4 has been oversubscribed.

LATEST IRISH SENSATION.
BRITISH TUG PIRATED.
ELABORATE REPUBLICAN CONSPIRACY.
HIG HAUL OF ARMS MADE.

LONDON, April 3.
In the House of Commons at question time, Mr. Winston Churchill said that a government tug piratically captured by Republicans while proceeding from Harlowline to Devonport contained 400 rifles, 700 revolvers, 39 machine guns, 500,000 rounds of rifle ammunition, and a small quantity of explosives.
The vessel had been taken to Cork and the cargo discharged into a hundred commandeered motor lorries. A warship left Queenstown to search for the tug and found the local population looting the vessel, the Republicans having disappeared. (Laughter.)

The fact that such an elaborate conspiracy could be engineered in Cork without the knowledge of the Provisional Government showed that the latter's control of the district was practically non-existent. This was all the more remarkable because public opinion in Cork was overwhelmingly for the treaty.
The Admiralty would in future furnish naval escorts for the maritime transport of arms. Mr. Churchill added that he did not think there was much danger to passenger ships.

BELFAST MURDERS.
LONDON, April 3.
Altogether five civilians, all Catholics, were murdered in their homes in Belfast on Saturday night as a reprisal for killing a policeman in the street by a Sinn Féin sniper.

SOCIALIST CONFERENCE.
STORMY BERLIN MEETING.
BERLIN, April 3.
A conference of three Socialist internationalists was opened in the Reichstag. Messrs Ramsay MacDonald, Harry Gosling, and Tom Shaw represent Britain.
A protest by the Bolsheviks against the presence of Russian Mensheviks threatened to break up the conference at the outset, but a decision to hold sittings in public settled the difficulty.
The Austrian Adler explained that the conference aimed not at fusion but at joint action in three groups of labour questions.
After a heated altercation between the Belgian van Dervelde and the Bolshevik Badek regarding the sincerity of the Bolsheviks, the conference adjourned.

MOTOR RACE PIRLS.
TWO MEN KILLED.

PALERMO, April 3.
The 13th Targa Florio motor race of 432 kilometres over mountainous country, for which 47 competitors entered, was won by Masetti in a Mercedes in six hours 50 minutes, 52.1/5 seconds.
Souz on a Ballot car was second, one minute 46.3/5 seconds behind. Foresti on a Ballot was third.
The race was very exciting. Nazzaro (driving a Fiat) and his mechanic were killed. Another driver was seriously injured.

NEW YORK BANDITS.
BANKER'S HOUSE RAIDED.

NEW YORK, April 3.
There is an epidemic of robberies by armed bandits. Four men entered the residence of Albert Shattuck, a retired banker, in Washington Square in the afternoon. They overpowered the servants, tied their hands and locked them in the wine cellar. After securing the banker and his wife in the same way, they secured \$50,000 worth of valuables. A butler managed to free himself and telephoned for the police but the burglars escaped; except one on whom \$20,000 worth of jew.ellery was found.

AEROPLANE DISASTER.
OFFICER KILLED.

AMSTERDAM, April 3.
A military aeroplane crashed at Helder. An officer was killed and another had his leg broken.

RUSSIAN RUMOURS.

LONDON, April 3.
In the House of Commons in answer to questions, Mr. Austen Chamberlain stated that no information was available that extensive mobilisation was planned by Russia for the summer.

SENSATIONAL SHANGHAI AFFAIRS.

(Continued from page 2.)

After the arrest of the two Koreans
all members who could be spared of
the foreign and Chinese branches of
the police force were ordered im-
mediately under arms, and detailed to
make an exhaustive search of the
foreign settlement. The French also
sent out patrol in the French Con-
cession. A strong detachment of
armed Sikhs, under Sub-inspector
Powell, were immediately posted on
the Bund and also a number of con-
sables round the spot where the
bomb had been thrown into the
Huangpu.

Earlier in the day three Koreans
were arrested, and it is thought that
they may have been connected with
the outrage. Detectives learnt that
throughout the morning a number of
Chinese, (presumably Koreans), had
made repeated inquiries at the office
of a number of shipping companies
with a view to ascertaining when the
"Pine-tree State" would dock.

Mr. Thompson was, up to a late
hour last night, stated to be progress-
ing favorably, and in no imminent
danger. He had been shot in the
chest.

We understand that both prisoners
last night made a full confession. One
of them it is alleged, stated that they
had been sent to Shanghai 10 days
ago by the Righteous Blood Society,
of Peking, expressly to murder the
ex-War Minister of Japan. Bombs,
arms and ammunition were provided
by this anarchist movement. It is
further alleged that it was arranged
between the two Koreans that one of
them should throw a bomb, and if it
should fail to explode, his companion
was to do the shooting.

SHANGHAI, TUESDAY, APRIL 4, 1932.

SHANGHAI WORRIES.

The chief of Shanghai's worries just now seems to be "communism," judging by its newspapers. They have dropped the word "Bolshevism," but manage to extract a satisfactory amount of terror out of the other. Very likely up there, as at Canton, they have studios young Chinese whose imaginations have been captured by the literature of the subject, which is almost as potent as it is extensive. The prophets in the Old Testament were all what we would today call "socialist agitators," and Jesus, on a literal reading of his own teachings, was undoubtedly teaching communistic ideas. Since then there have been many, even unto visitors like the Honorable Bertrand Russell. Now the City Fathers of Shanghai, who appear to have seen this coming for seven years (we allude to the self-expression of these young converts) still cling to the idea of combating such ideas by suppression. Our own sides is that the Chinese, once they realize that communism means giving as well as receiving, are people not likely to embrace the doctrine. Still, one never knows how far ideas may spread, and in a garbled form reflect social conduct to the disturbance of the existing order. That is not to say that attempts at suppression can succeed. The probability is all the other way. History shows that. The only effective weapon against propaganda is counter-propaganda. The hat-payers at their annual meeting on April 19 are again to be asked to give the Municipal Council certain

powers with regard to printed matter published in Shanghai. The N. C. Daily News is a gallant champion of the proposal, but cannot hope to hide the fact that this is the motive and purpose of asking for the new power over the Press. The printers and publishers are protesting against it as an encroachment on freedom of speech. On the face of it it merely requires that all printed matter should be so marked that its source can be known, a restriction to which we as a newspaper are already accustomed, without finding our freedom of speech hampered in the least. But we are subject only to the usual laws in such cases; it might be different if we were going to be subject to a body of men like the Shanghai Municipal Council, more prone to the enthusiasm of a "heresy hunt" than is the ordinary machinery of the law. If the N. C. Daily News writings on the subject faithfully reflect the mind of the Council, then we should suspect the unfitness of the Council to be trusted with such powers. We should not even, in Shanghai's circumstances, care to trust to an amendment suggested by a correspondent, "that nothing in this by-law shall be construed as detrimental to, or empower the Council to muzzle or unduly, unfairly, or unjustly interfere with the respectable newspaper publishers and printers and or fair criticism." Because the definition of "respectable" and "fair criticism" is never justly made by excited or prejudiced people. When self-interest wavers balance shakes its rarely right adjusted. "Fair criticism" is criticism of the other side; of our own it is manifestly unfair. This does not apply to British courts of justice; but it most certainly does apply to municipal councils. On this very subject of "the dissemination of seditions (sic) literature," the N. C. Daily News observes that there are

always "hysterical individuals" wrought up out of all self-control by anarchical or revolutionary reading. That applies with equal force to those who lose self-control in fear of revolutionary reading. Incidentally, our contemporary was moved to this remark (as well as to a hysterical demand for the restoration of the "cat") by the Korean outrage. Are its own hands clean in the past matter of printing anti-Japanese thoughts calculated to inflame Koreans?

ARMED ROBBERIES.

CHINESE WOMAN DUPED AND
ROBBED.

Hearing a knock at her front door last night a Chinese woman living on the first of No. 31, Wusung Street, looked through the peep hole. She saw two men on the landing, one of whom she recognised as having called the previous day to rent a cubicle in the flat, for which he had paid \$1 in advance. She opened the door and four men rushed in. Two of them produced revolvers and drove her and her mother into the rear cubicle where they bound and gagged them. After taking a bunch of keys from the younger woman, the robbers left one man in the cubicle on guard while the other three helped themselves to clothing worth \$20. Returning to the rear cubicle, the robbers relieved the women of jewellery they were wearing, worth \$156, and then decamped after spending about a quarter of an hour in the house. It was several hours before the women were released when their men folk returned from the theatre.

HARBOUR FIND.

BOATWOMAN'S SMALL
ARMOURY.

Before Magistrate Lindell this morning, a boatwoman was charged with the unlawful possession of two automatic pistols, one small revolver, and 500 rounds of ammunition. Mr. F. X. d'Almada, who appeared for the defendant, entered a plea of guilty, but said that his client had found the contraband while dredging the harbour. He admitted that she had been very foolish to throw it overboard when C.P.O. Clark boarded the vessel, but that did not prove guilt.

C.P.O. Clark said that the contraband could not have been long in the water. The Magistrate told Mr. d'Almada that in these days of armed robberies.

Mr. d'Almada agreed, but suggested that surely a woman would not be suspected of being an armed robber. A fine of \$750 or six months was imposed, and the contraband was confiscated.

MOTORISTS FINED.

RECKLESS AND DANGEROUS
DRIVING.

Magistrate Lindell had four motor cases before him at traffic time this morning.

In the first the driver of motor car No. 77 was charged with having driven his vehicle in a reckless and negligent manner to the danger of the public.

Inspector Garrod said that the offence alleged against the defendant was that he drove through Aberdeen village at 3.45 p.m. on March 19 with other cars following and suddenly stopped and backed without giving the usual signal, thereby nearly causing an accident opposite the paper mill.

The defendant claimed that he had signalled before stopping.

Mr. G. Yates, who was in car No. 448, between 20 to 30 yards behind the defendant's car, said that the defendant stopped by the gates of the paper mill just over the bridge. He gave no warning, and immediately started to pull across the road, and then backed.

Magistrate: Did he not stop?—No, it was a Ford, and these cars can do all these things simultaneously and very quickly.—(Laughter).

Continuing, Mr. Yates said that the defendant did not signal in spite of the fact that his chauffeur sounded his horn because he did not know what the defendant intended doing.

Defendant: My hood was up, perhaps that prevented you from seeing.

Witness: Had you put your hand out I should have seen you.

Magistrate: If you did signal, all your signals were wrong. You should have put your left hand out of the car and kept it there before stopping, and then again before turning. If your hood was up how do you expect to be seen if you signal inside the car? Fined \$10.

The driver of motor car No. 604 was also charged with having driven recklessly and to the danger of the public in Praya West at 12.20 a.m. on March 29.

Sergeant Hallam said that he estimated the defendant's speed at 25 miles an hour.

Defendant: I do not remember.

Magistrate: You must remember, the summons was served on you within two days.

After the Chinese date had been given to him, the defendant admitted the charge and was fined \$15.

THIRTY MILES.

The chauffeur employed by Mr. Robert Yipp, proprietor of Messrs. Reiss and Co., was charged with having driven car No. 482 in a reckless manner and to the danger of the public in Connaught Road West, and with having failed to produce his driver's licence.

Sergeant Hallam estimated the defendant's speed at 30 miles per hour in a congested area. He explained that four was being unloaded into a godown from a junk and there were many coolies crossing the road at the time.

Defendant pleaded guilty to both charges.

Inspector Garrod said that he had a record against defendant for reckless driving in 1920, and the Magistrate imposed a fine of \$20 on the first charge and \$5 on the other.

SCATTERING PEDESTRIANS.

The driver of car No. 484 was next charged with a similar offence in Queen's Road West at midnight on March 28.

Sergeant Hallam said that he was out dog shooting when he saw the defendant speeding. He timed him with his stop watch between the Gas Works and the junction of Hill Street, and estimated the defendant's speed at 25 miles an hour. The road was congested with people boarding the trams from the hotels. Pedestrians had to scatter in all directions to avoid being run over.

Defendant held that he was going only 15 miles an hour, but the Magistrate declined to believe him.

Inspector Garrod said that the defendant had a C.S.P.'s entry in his licence for causing an accident last year. A fine of \$15 was imposed.

According to the Shanghai *Journal of Commerce* the Diplomatic Corps in Peking have warned the Chinese Government that if no steps are taken to reform the municipality of Peking, which is in a disgraceful condition, they will demand that the place be put under international control. The Ministry of Foreign Affairs has brought the matter to the attention of the Ministry of Interior, which is said to look into the matter and take steps towards the necessary reforms.

NEW OIL TANKER.

THE "PLANORBIS" LAUNCHED.

CEREMONY AT KOWLOON DOCK.

The third of the four oil tankers which the Hongkong and Whampoa Dock Co. is building for the Anglo-Saxon Petroleum Company was launched successfully at Kowloon Docks this morning. The name of the new ship is the "Planorbis" and it has been constructed on similar lines to its sister ships, the "Faldina" and the "Petricola." There was a large gathering of visitors at the bows of the vessel when Mrs. Claud Severn, amid cheers, sent it sliding down the ways. Amongst these present were Mr. Claud Severn, C.M.G., the C.S.P. (Mr. E. D. C. Wolfe), the chief manager of the Dock Company (Mr. R. M. Dyer), Messrs N. L. Watson and W. H. B. of the A.P.C., and Messrs D. G. M. Barnard and G. M. Dordwell.

When, following the launching ceremony, the party had adjourned to enjoy the customarily lavish hospitality of the Dock Company, Mr. D.G.M. Barnard, the chairman of directors, rose to thank the visitors for coming along to see the new ship launched. He said he felt sure that the "Planorbis" would be a valuable acquisition to the Anglo-Saxon Petroleum Company's fleet, mentioning that the two boats of this type already built were giving every satisfaction. After thanking Mrs. Severn for so kindly launching the ship Mr. Barnard presented her with a souvenir of the occasion.

After the success of the ship and the prosperity of her owners had, at the invitation of Mr. Barnard, been toasted in champagne, Mr. Severn replied on behalf of his wife who, he said, had asked him to say what very great pleasure it had given her and what a great honour she considered it to be asked to launch the ship. Mr. Severn, after thanking the Dock Company for the souvenir presented to Mrs. Severn and for their hospitality, went on to remark that the world at present was suffering perhaps from too much shipping. That, however, was, he felt sure, purely a temporary feature of the times in which they lived and the demand for shipping must arise again soon. When that time arrived they might feel certain that one of the first shipyards called upon to produce modern ships of large tonnage would be that of the Hongkong and Whampoa Dock Company to whose prosperity he asked them to drink.

Replying on behalf of the Company Mr. R.M. Dyer said that the construction of this particular type of vessel was a test of capable shipbuilding and the Company felt that they had fulfilled the test. With regard to those good times of which Mr. Severn had spoken when they did come they be out for all the orders they could get. (Applause).

DESCRIPTION OF VESSEL.

The single screw vessel "Planorbis," built and engineered by the Hongkong and Whampoa Dock Co., Ltd., at their Works in Kowloon, for the Anglo-Saxon Petroleum Co., Ltd., London, is the third oil tanker carrying petroleum in bulk to be built in China, and is the third of four vessels now under construction for this Company.

The principal dimensions are as follows:—
Length over-all 427 ft.
Breadth extreme 53 ft. 5 in.
Depth moulded 31 ft.
Load draft 24 ft. 9 in.
Deadweight carrying capacity, 8,400 tons.

The vessel has a straight stem, and elliptical stern, with long poop, with a short bridge and forecabin, and has been built on the Isherwood longitudinal system of framing to pass Lloyd's 100 A.I. Class. The machinery is aft. Accommodation for the navigating officers is provided in houses on bridge deck, and for the engineers on the poop, each with a separate room. Saloon, and engineers' mess room are fitted out in an artistic style. The petty officers' quarters, seamen and greasers' quarters are situated in the forecabin, and their three mess rooms are in poop near the engine casing. Both a European and a native galley are supplied.

The "Planorbis" is sub-divided by transverse and longitudinal bulkheads, stiffened longitudinally, into 18 main oil tanks and 10 summer tanks. The pump room is situated amidships between No. 4 and No. 5 tanks.

A dry cargo hold is fitted forward under which is a deep tank for either oil fuel or water ballast. Cross bulkheads and side bulkheads are constructed oil-tight so that they can be used for either coal or oil fuel. A double bottom is fitted under boilers for oil fuel and under engines for reserve feed water, and both forward and after pumps are arranged for water ballast for trimming purposes. The fresh water is contained in a built in tank aft in the lower 'tween decks.

The machinery consists of a steam driven triple expansion engine having cylinders 27 inches, 44 inches and 73 inches, with a stroke of 48 inches. Steam is supplied by three Scotch boilers of the usual marine type having a working pressure of 160 lbs. per square inch. The boilers are arranged so as to be able to burn either oil or coal as fuel, with Zulver Smith System and Howden System of forced draught. The main auxiliaries, including Weir's feed heater, evaporator distiller, and oil fuel pump are fitted in engine and boiler rooms.

The vessel is capable of maintaining a speed of 11 knots in the loaded condition.

The cargo oil is handled by two large horizontal duplex oil pumps, Hayward Tyler type. Pumps are so arranged that they will pump from the sea into any oil compartment, and from any oil compartment into any other oil compartment on opposite sides, also pump from any oil compartment and deliver simultaneously over each side of vessel all through main sea valve. A special oil fuel pump is in fore hold for transferring oil fuel in deep tank forward into the cross bunker aft.

The steamer is equipped with wireless apparatus, powerful steam whistle, winches for handling cargo and towing purposes, and steaming gear with telemotor control, with steam heating in accommodation, and electric light.

CORRESPONDENCE.

A CORRECTION.

(To the Editor of the "China Mail.")

Sir,—Allow me to point out the following inaccuracies which appeared in your report of the case of J. E. Rittman in Magistrate Wood's Court yesterday.

Your report states that it was made clear to him that his salary would only be \$200,—and that he was subsequently given \$250,—per month, because he had incurred heavy debts. This would look as if a premium was put on incurring debts and of course no increase was ever given for that reason.

The fact is, that Rittman was told, within 24 hours of his arrival, that his salary would be \$250, per month, because we did not wish him to depend on remittances from home and did not intend to employ volunteer or semi-volunteer assistants. No representations whatever were made by him at that time and the fact of his asking for increases of salary later on, never influenced in any adverse sense our attitude towards him.

I should further like to point out that in the last but one Allene you state that a remand was asked for "So that he could instruct his Consul," and obviously one could hardly "instruct" his Consul.

This should read of course, that the intention was to "instruct counsel."

I would feel obliged if you would insert these rectifications in your paper and thanking you before hand.

Yours etc,

ALEX. W. VAN ANDEL,

Manager.

CORONET THEATRE.

SPECIAL PRENCE'S VISIT
PICTURE.

Fit for a prince—if not for the Prince, is the special holiday programme the Coronet Theatre has arranged for this great week in the Colony's history. The festive spirit everywhere manifest will find added stimulus at the popular little cinema this evening when the feature attraction expressly secured for the Prince's visit will be screened for the first time. With the big draw inevitable from the enjoyment promised and the certain prospect of heavy patronage from the "Renown," the Coronet indeed faces a record week. The main picture, as the public will specially find fully justified selection for this historic occasion. Produced by First National, America's leading film makers, its quality needs no praise. Nor does its acting, since Constance Talmadge plays the leading role and Harrison Ford the principal male part. Unusually clever and amusing, the story relates the courtship adventures and matrimonial tribulations of an impetuous young couple—their hasty marriage is almost as rash as their equally hasty divorce—whose first meeting in a Palm Beach hotel is unconventional to a piquant degree. Caprice of youth and mischief of fate give this picture its rare sparkle and charm. Farce it is and mighty funny farce too, thanks as much to the delightful acting of the vivacious Constance as to the flowing humour of the happy story. But then these things should cause no undue surprise. The picture is based on the proved stage success of the same title. Its name is "Wedding Bells."

Alfonso is exhibiting much sympathy in connection with the death of Karl and has invoked the Pope's co-operation in an appeal to ameliorate Zita's lot. He has offered all the requisite funds and has ordered the maximum court mourning. The Vatican organ endorses Alfonso's plea.

THE PRINCE'S VISIT.

DECORATIONS TAKING SHAPE.

Gradually the decorative scheme which is to make Hongkong beautiful for the Prince's visit is taking shape. Chiefly, it is the Government Buildings that are displaying the most bustle. The Supreme Court and the Post Office are almost unrecognisable for their staid selves; strings of flags, huge "G. R."s, crowns, and shields are giving them an unostentatious appearance. An object of general admiration this morning was one of the elephants which is to be used in connection with the Indian community's arch, outside the City Hall.

JAPANESE VISITORS ARRIVE.

During this morning the Japanese light cruisers "Kiso," "Om," "Kuma," and "Tama" arrived, bringing with them Vice Admiral Sapporo Momotake and Rear Admiral Katsunoshi Yamashiro. The customary salutes and official calls were exchanged after the Japanese visitors had taken up their berths in the naval anchorage opposite the dockyards. They will remain here during the Prince's visit and will afterwards escort the "Renown" to Japan. Rear Admiral Yamashiro is to make preliminary arrangements here for the Prince's Japanese tour.

DRAGON BOAT WELCOME.

On Thursday morning the Victoria Recreation Club is arranging to send out a dragon boat race. It also hopes to man some Chinese dragon boats to go out and meet the Prince. Consequently, as many members as possible should volunteer and those willing to take part are asked to be at the V.R.C. on Thursday morning not later than 6.30 a.m.

This welcome by dragon boats should lend a picturesque interest to the "Renown's" arrival in port.

SOUVENIR PROGRAMME.

An artistic little souvenir of the Prince's visit which may be readily sent abroad to show friends how the Colony welcomed its royal visitor or treasured as a memento of a historic occasion, the official programme of the two days' celebrations printed by Messrs. Kelly and Walsh, Ltd., should find quick sale. Bound in rich gold covers with an excellent portrait of the Prince in naval uniform on the front, this handy little booklet sets forth the arrangements for entertaining His Royal Highness from the arrival of the "Renown" at Thursday morning to its departure on Saturday. In a word it tells you where to see the Prince and when.

TRAFFIC ARRANGEMENTS.

Police arrangements for the regulation of traffic on the occasion of the Ball in honour of H.R.H. the Prince of Wales on the night of April 7, appear in an advertisement in this issue.

After about three months' continuous propaganda, the Canton Purity Campaign is now in full swing. At first there was little enthusiasm, but as the objects have become more widely known the whole city has been moved to action. On Friday the city was canvassed and eight out of every ten shops put up the sign *Tsun Shing Fai Cheung* (We agree to the prohibition of prostitution). A mammoth parade held yesterday further impressed the people concerning the matter.

Sir Oswald Stoll, who presided at the annual meeting of the Stoll Picture Theatre (Kingsway), Ltd., said he began to manage a theatre at the age of 14 years and 3 months. Sir Oswald's mother married as her second husband Mr. Stoll, a retired Mercantile Marine captain who owned the old Parishon Music-hall in Liverpool, and it was on Mr. Stoll's death that the boy, who was then just over 14 and had taken his stepfather's name, began to manage the theatre on behalf of his mother.

U. S. SHIPPING BOARD AND INSULAR TRADES.

RESOLUTION TO TAKE EFFECT IN THE PHILIPPINES.

President Harding has been advised by resolution of the Shipping Board that American flag ships are prepared to afford adequate freight and passenger services to all the insular possessions, except to the Virgin Islands, and has been asked to proclaim the extension of the coastwise lines. When the President by executive proclamation serves notice of the intention to take this action in conformity with Section 21 of the Merchant Marine Act of 1920 foreign ships will be excluded from these trades.

Ninety days after the proclamation is issued it becomes effective. In the case of the Virgin Islands the Shipping Board requests 90 days' notice so that it may make due preparation.

President Harding will not act, it was learned at the Shipping Board, until a delegation from the legislative body of the Philippines arrives in Washington. The President desires to hear the views of the Filipinos before issuing any order affecting the transport service. It is believed, however, that the President has been converted to the idea and that he holds the business interests of the Pacific Islands should be willing to bear the possible increase in freight rates which will come with the extension of the coastwise laws in return for certain tariff concessions they obtain because of their relations with the United States.

Under the law the President might order the extension of the coastwise laws any time after February 1, 1922. The Shipping Board is expected to be in a position to offer a weekly service from the Pacific Coast ports to the Philippines by the time the act comes into effect.

The Japanese lines will be most affected by the change, as they will not be permitted to carry passengers or freight from the American ports on the Pacific Coast.—New York Maritime Register

TAKE CARE OF YOURSELF.

If you want a clear head and good digestion you must not let your bowels become clogged with poisonous waste from the body, as is always the case when you become constipated. Proper food, an abundance of water and plenty of outdoor exercise should keep your bowels regular. When that fails you should take Chamberlain's Tablets. They cause a gentle movement of the bowels and are easy and pleasant to take.

decades of savings from his salary and

his fees as a director of various com-

owing to his modest style of living. He

accumulated the money in the form of bank-

why there was no trace of the money in

COMMUNISTS BUSY!

The N. O. Daily News reproduced
a paragraph from the Chinese press
stating that Messrs. Butterfield &
Swire had received a petition from
300 of their wharf coolies asking for
an increase in wages. The petition
was couched in the typically formal
language employed by Chinese in such
cases; the petitioners appealed to
Messrs. Butterfield & Swire with tears,
etc.; and on the face of it the document
seemed essentially genuine. As a
matter of fact it was not, but was
in reality a very clever piece of communist
work, now says that paper.

It is no secret that for a considerable
time past agitation of a communist
type has been rampant in
Shanghai no less than in Canton. In
the latter centre it has paraded itself
in the open, but in the less favourable
atmosphere of Shanghai it has
had to move by subterranean paths,
and the methods adopted have been
insidious to a degree. The present is
no more than an attempt to stir up
strife and discontent among a section
of the community which is perfectly
contented with its lot. It is gratifying
to learn, however, that it has
immediately been exposed.

THE LABOUR ARRANGEMENTS.

To understand the position in the
present case it is necessary to deal
with the arrangements made by
Messrs. Butterfield & Swire for the
handling of their cargo at the wharves.
It is roughly as follows: They em-
ploy the services of three contractors
or headmen who in turn provide the
required labour, which naturally
varies in volume from week to week.

For the proper handling of
cargo it is necessary that
there should be a permanent
staff of skilled men, and one of the
contractors is responsible for their
supply. These are paid a monthly
rate of wages by the contractor, and
their role is to set the purely casual
labourers on the right lines in dealing
with the cargo. The other contractors
find the additional labour when and
as it is necessary, and sometimes this
may mean the employment of 2,000
or 3,000 coolies, for instance when a
considerable number of ships are in
port.

Messrs. Butterfield pay the con-
tractors at a fixed rate per package
or per ton as the case may be, and
the contractors in turn pay their
employees the current rate of pay.
Anybody in the least familiar with
labour conditions in Shanghai knows
that this is a very variable sum, owing
to such matters as the incidence of the
harvest, when the coolies are largely
attracted to the country. At all times
Messrs. Butterfield exercise a general
supervision over the payment of the
coolies with the object of assuring
themselves that no cause of discon-
tent or trouble is likely to arise
through an attempt to cut their
wages. In view of the recent trouble
in the south this supervision has been
increased of late, but it has been
found that the men are receiving
their proper wages and there has been
no sign of dissatisfaction.

AN ANONYMOUS DEMAND.

When accordingly the petition was
received it was matter of considerable
surprise to Messrs. Butterfield. One
matter, however, about the document
was suspicious—that it was unsigned.
Inquiries were promptly set on foot,
and these clearly showed that the
petition did not emanate from any of
the coolies working at their wharves.
The most careful scrutiny showed
that they knew nothing of the matter
at all, but very soon a clue to its origin
was forthcoming.

As usual the coolies gather in the
tea-houses after their work, and on
one such occasion, it has been learned
they were addressed by some one
who urged a demand for higher
wages. He was not one of them-
selves, and his utterances did not
create any tangible impression.
This part of the matter is clearly
established, and the conclusion is
readily drawn that this tea-house
orator was implicated in the scheme
for sending the petition.

The situation is accordingly simply
clear, bearing out the suspicions of
past months. Without question
agitators are at work, and the
ordinary methods of propaganda
having failed, they are resorting to
plans which if successful would force
labour unrest upon an unwilling
community. Fortunately in the
present case the whole scheme has
been immediately exposed, and the
matter is not likely to go further as
regards "discontent" among this
particular set of men. It is, however,
a plain warning to employers of
labour here that dangerous influences
are in operation in our midst and
must be guarded against by all
possible means.

TRAMWAY TROUBLE SETTLED.

As the result of a conference held
yesterday afternoon at the office of
the Secretary for Chinese Affairs (the
Hon. Mr. E. R. Halliday) the dispute
in connection with the tramway men's
wages has been settled. The men's
original demands, submitted to the
Tramway Company on March 24,
were:—

1. That eight hours constitute one
shift, and every motorman or con-
ductor who has to work over the limit
be given double pay according to the
hour.
2. That the salary of those who
have been in the Company's service
for three years and more be advanced
by \$3 a month, five years and more
by \$5, ten years and more \$10, and
fifteen years and more by \$12.
3. That conductor or motorman
working on Chinese festival days
(Ching Ming festival or the Chinese
Tomb Day, Dragon Boat Festival,
Mid-Autumn Festival, Confucius day,
Chung Yang Festival, Anniversary of
the Chinese Republic, and the Winter
Solstice Festival) be given double
pay and that they be given a bonus
in the form of half a month's pay on
the Chinese twelfth moon.

4. That every motorman or con-
ductor who reports himself to the
Company in the morning and during
the day when shifts take place be
given one shift's pay, no matter if he
obtain work or not.

5. That notices containing instruc-
tions to conductors and motormen
and regulations issued by the Com-
pany to be observed by them be first
submitted to their guild to be con-
sidered and approved.

6. That trams should not stop at
places other than regular stopping
places.

7. That the guild be entitled to
recommend motormen and conductors
to the Company for vacancies.

8. That the continuation of work
after one shift be decided by them
individually, and it should not be
compulsory.

9. That the increase become effec-
tive from the 1st February.

The men dropped the fourth and
last of these demands and the Com-
pany accepted the sixth and seventh
without modification. The other five
were discussed and an agreement
reached

YESTERDAY'S RESULTS

There was a big programme of matches in connection with the H.K.C.C. tournament yesterday when a large gathering witnessed some very good games.

E. Busschaert and R. C. Wittball put up a strenuous struggle against Wong Po Keung and V. Yvanovich in the open championship doubles, but their opponents won comfortably on their lightning service, which was very difficult to play.

Another match which drew a large crowd was that between F. L. Lau and F. A. Redmond in the open championship singles. The players were very evenly matched and a great struggle resulted. The first two sets ran into 9 and 10 games respectively, each player taking one set. The third was very strenuously contested, and 22 games had to be played before the decision went to Redmond for 12-10. Lau made it two sets all for 6-1 in the fourth and then Redmond took the match by winning the fifth set 6-4. Both men played strongly on the base lines, but Redmond's service gave him the advantage over his opponent.

The full results—
Open Championship Singles.—F. A. Redmond beat F. L. Lau, 3-6, 6-4, 12-10, 1-6, 6-4. J. B. Fennan beat Major C. Wilson, 8-6, 6-2, 6-3.

Open Championship Doubles.—Wong Po Keung and V. Yvanovich beat E. Busschaert and R. C. Wittball, 4-6, 6-4, 6-4, 8-2. A. A. Rumjahn and S. H. Ismail beat R. K. Valentine and D. J. Valentine, 8-2, 6-4, 7-5. R. M. Smith and G. M. Dodwell received a walk over from C. C. Stark and B. C. Cornie.

Handicap Singles "A".—G. M. Dodwell (scr.) beat A. B. Raworth (—15.1), 6-2, 6-1. A. B. Raworth (—12.6) beat Capt. P. H. Davies (scr.) 7-5, 6-4.

Handicap Doubles.—M. E. F. Airey and F. B. Pfondt (15.1) beat T. M. Larkins and C. V. Mark (11.6), 8-10, 6-4, 6-2.

HOCKEY

UNITED SERVICES LEAGUE

FINAL YESTERDAY

The final of the above league was played at Sookumpoo yesterday afternoon, between teams representing H.M. Submarines and the King's Regiment.

The game was very fast throughout. All the scoring took place in the first half. Dangerfield did the hat trick for the King's by scoring three goals in succession, and Jones added a fourth. After some strenuous attacking the Submarines managed to get through just before the interval. Although both sides attacked vigorously in the second half, no further scoring took place and the King's ran out winners by four goals to one.

FOOTBALL

UNITED SERVICES LEAGUE

EXHIBITION MATCH

The R.G.A., having won the above league, an exhibition match between the champions and a team chosen from the rest of the league was played at Sookumpoo yesterday afternoon immediately following the Hockey final.

The Rest proved too strong for the champions who went down by two clear goals. The Gunners played with the wind in the first half, and the exchanges went in their favour, but Mitch was safe in goal and brought about some very creditable saves. Towards the close the Rest pressed and Burnett sent in a lofty shot which Phillips did well to pull down.

Later Hill sent the ball across goal but there was no one in position to convert. The score sheet was blank at the close of the first half. With the wind in the favour in the second half, the Rest went down the field in fine style from the opening whistle, and after giving the Gunners' defence a lot of trouble, Duval scored from close range. Soon afterwards they returned to the attack and Burnett added a second goal. Try as they would, the Gunners could not score and lost a hard fought match by 2-0.

PRESENTATION OF TROPHIES

At the close of the matches the General Officer Commanding, Sir John Fowler, addressed those present, complimenting the teams on the good show they had put up in the various games. He thanked Col. Humphry, President of the Garrison Recreation Committee, Rev. M. W. Shewell, C.F. (Hon. Sec. United Services Hockey League) and Master Gunner May (Hon. Sec. U. S. Football League) for the hard work they had put into making the United Services games such a success.

Lady Fowler presented the hockey shield to Capt. Cross of the King's Regt., and the football shield to Sgt. Walker of the R.G.A. team. Her Ladyship handed to members of the R.G.A. team replicas of the shield in gold, and to the Tamar's team in silver.

Mrs. Gnr. May then presented to Lady Fowler a bouquet tied with ribbons, the colours of the Royal Regiment. Three cheers for Lady Fowler brought the pleasant ceremony to a close.

HONGKONG LEAGUE

DIVISION I

"CURLEW" 3; "TITANIA" 0.

This match, played on the Navy "A" ground yesterday afternoon, resulted in a win for the light cruiser by three clear goals. Dyer scored for "Curlew" in the opening few minutes of the game with a fast shot from close in. The game became even after this, but towards the close of the first half, Cook put "Curlew" further ahead.

The second half was a ding-dong struggle for the best part of its duration, and both goalkeepers were given a lot of work. The backs also had to play a hard game to keep their citadels intact. However, "Curlew" refused to be denied, and after giving the defence a hot five minutes in the closing stages of the game, scored a third goal, Cook being responsible.

Subject to the ruling of the League Management Committee on "Curlew's" claim against the Police who failed to turn out on two successive Saturdays, "Curlew" completed their fixtures yesterday.

A meeting of the Football Association takes place at Victoria Barracks this evening at 5.30.

ACROSS THE PACIFIC

EMPRESS BOAT'S RECORD TIME

Under date Victoria, B.C., February 8 the Montreal Gazette publishes the following article on the question of the trans-Pacific record:

Claims of Seattle shipping men that the "Pine Tree State," of the U.S. Shipping Board, had broken the Trans-Pacific record were dispelled when the actual facts became known. But there was considerable excitement along the Vancouver and Victoria water-fronts over the reported claim of the "Pine Tree State" to the Trans-Pacific record with a run of 9 days and 11 hours from Yokohama to quarantine at William Head. She steamed up Puget Sound with a broom at her masthead, indicating that she had broken all records. Reference to facts, however, indicated that the Trans-Pacific record is held by the "Empress of Russia" of the Canadian Pacific fleet, which crossed from Yokohama to William Head in 8 days 18 hours and 31 minutes. This was on May 30, 1914.

The "Empress of Asia" made the Trans-Pacific run in 8 days 21 hours and 4 minutes, with her arrival on June 30, 1919.

What record the "Pine Tree State" cannot be ascertained, but the fact is on the waterfront feel that justice has been done trying to claim an honour that still belongs to the Canadian Pacific.

THE "EMPRESS OF CANADA." Just what time the "Empress of Canada" will make is not known, but it is expected that the new line will walk away from all craft on the Pacific Coast. An endeavour was made recently to have the time of the "Empress of Russia" changed so that she could leave at the same time as the "Silver State" and race across the Pacific, but the Canadian Pacific discouraged the move, stating that the safety of the passengers came first and they would not condone racing on the part of their skippers.

But whatever disputes may arise between the Canadian Pacific lines "Empress of Russia" and "Empress of Asia" regarding speed, there are few other vessels on the Pacific qualified to take part in the controversy. But it takes time and opportunity to bring this truth home in some instances.

ERUPTIONS ON CHILD'S HEAD

And Face, Caused Irritation At Night, Cuticura Heals.

"Cuticura Soap and Ointment healed the sore eruptions on our little boy's head and face. They were of a watery nature and wherever the water went it formed crumpled crusts after a time dried, forming a scale. They caused a great deal of irritation and restlessness, especially at night which caused him to scratch. We used Cuticura Soap and Ointment and after using one box of Ointment and one tube of Soap he was healed." (Signed) Mrs. E. Boody, 103, Cooke Rd., Kennington W. London, S.E., Eng.
